SUBJECT: Proposal for Vacuum Easel for []
[] Enlarger.

Gentlemen:

In response to your request we are pleased to submit the following proposal for estimated cost and delivery for:

Vacuum Easel for [] Enlarger, installed complete with vacuum pumps, and controls for holding paper flat during exposure. The easel is to consist of a flat aluminum plate, 3/4" thick, machined to provide the vacuum distribution over the 42" x 42" top surface. This plate will be covered with a white laminated phenolic work surface drilled to match the pattern in the aluminum plate. Provisions are made for mounting this easel to the base frame of the enlarger with the levelling mounts presently used on the enlarger table. All valving and vacuum line connectors will be made to the under side of the easel and connected with suitable plastic tubing to the vacuum pumps. Controls for the vacuum pumps and solenoid switching valves will be grouped on a small panel at the front of the easel. The pumps will be equipped with mufflers to eliminate excessive noise, these are to be vacuum cleaner type blowers capable of creating over 60" water suction.

The control switches will have subdued lighted push buttons to indicate the areas of the table being activated. A clearing switch will release all areas simultaneously.

The cost for the above work is estimated, under the terms and conditions of [] distributed as listed below:

Direct Materials
36 hrs. Eng. Labor (Inc. overhead & Profit) @
64 hrs. Fabr. Labor (" " ") @
24 hrs. Install. Labor (" " ") @

Delivery can be made in 10 weeks, under present schedules, after authorization.

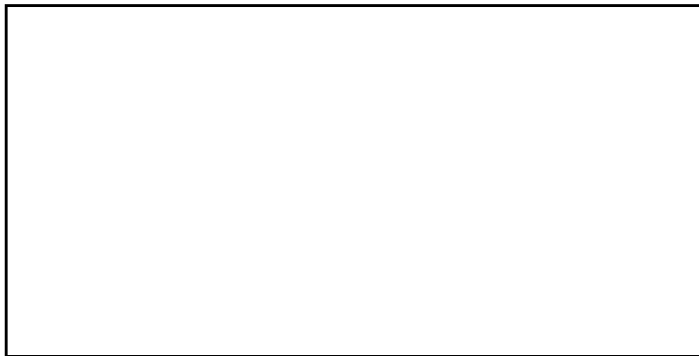

We trust the above information is satisfactory. Please advise me if further details are required.

Very truly yours,

[]
Vice President
